About INFLIBNET

Information and Library Network (INFLIBNET) is an autonomous Inter-University Centre of the University Grants Commission (UGC). The objectives of the Centre are to modernize libraries and information centres for information transfer and access, to support scholarship, learning and academic pursuit by establishing a national network of libraries and information centres in universities, institutions of higher learning and R & D institutions in India. Creation of national union database (IndCat), development of an integrated library management software (SOUL 2.0), human resource development, on-site training, providing bibliographic information services, extending technical help and guidance from time to time to academic libraries in automation and networking are some of the major activities of the Centre. The Centre provides access to e-resources to universities under the UGC-Infonet Digital Library Consortium. The Centre also provides access to 6500+ e-journals and 97,000+ e-books to the colleges in India through programme titled "National Library and Information Services Infrastructure for Scholarly Content (N-LIST)".

About Workshop

Learning through an electronic devices such as computer, smartphone, tablet, over internet or Intranet, is referred as electronic learning (e-learning). In the process of e-learning, an access to electronic content is provided over the networks and the users can access it by username and password using different electronic gadgets as well as desktop based application. With an advent of information and communication technology the content is being generated in electronic form and it is easily accessible to all the stakeholders. The rapid growth in the e-content development using web technology and its ever increasing usage has given an unprecedented opportunities to the educators to extend learning material to the learners not only within the four walls of class rooms but also in the comforts of their home all over the globe. The INFLIBNET Centre is organising three day workshop on "E-Learning: Content Creation and Hosting on LMS" during December 03-05, 2014 at INFLIBNET Centre, Gandhinagar. The workshop includes lectures as well as extensive hands-on training which will provide both theoretical and practical exposure to the participants. The workshop will provide exhaustive information on e-learning, electronic content creation and hosting of electronic content. It will enable participant to know about the electronic content generation, content management, learning management system, etc. The participants will get fair idea about e-content development, open source learning management systems such as MOODLE,

ATutor, etc customization of LMS. Moreover, the workshop will provide extensive hands-on training on installation and configuration of LMS.

Following topics will be covered in the workshop

- Introduction to E-Learning and content creation;
