INFLIBNET Learning Management Service (ILMS)

INFLIBNET Learning Management Service (ILMS) is a service offered by the Information and Library Network Centre to institutions of higher education across the country. This service is being offered to all the Central, State and Deemed universities. Some of the core features are Course creation, Enrolment, Assignment & Assessment, Discussion forum, etc. During this reported period, the INFLIBNET Centre deployed its free ILMS service to one institution that is Krishna Institute of Medical Sciences University (KIMSU), Karad, Maharashtra.

## Indian Research Information Network System (IRINS)

IRINS is a web-based Research Information Management (RIM) service provided to higher education institutions in India by the INFLIBNET Centre. IRINS facilitates the academic, R&D organizations and faculty members, and scientists to collect, curate and showcase scholarly communication activities and provides an opportunity to create a scholarly network. The INFLIBNET Centre has created 604 IRINS instances for institutions until the reported period, including 67 IRINS instances created during the period under the report. IRINS has connected a total of 921,80

faculty members through this project. The project retrieved a total of 1572,460 publications metadata from various sources and received a total of 164,90,482 citations & received a total of 49,48,210 Altmetrics mentions till the reported period.

Shodhganga: a reservoir of Indian Theses

Shodhganga: a reservoir of Indian theses, the repository of full-text theses in Indian Universities has grown progressively during the period under report. As on 30th September 2022, a total of 719 (665 Universities + 54 CFTIs/INIs) have signed MoU on Shodhganga with the INFLIBNET Centre where 15 MoUs (11 Universities + 04 CFTIs/INIs) were added during the reported period. And the total number of theses deposited into the Shodhganga repository has grown up to 3,86,264 by the end of the reported period by the contribution of 572 contributing Universities.

The total number of theses uploaded in the Quarter-Q3 (July-September 2022) was 17,993 as depicted in (Figure 1).

Figure 1: Theses uploaded to Shodhganga July-September 2022

Bulk Upload of Metadata Interface added to Shodhganga:

There were a lot of requests from Institutions who had their own repository (IR) for Theses and transferred the same metadata to Shodhganga to avoid duplication of work. Those requests were mainly from CFTIs/INIs who have decided to join Shodhganga lately. Thus, based on the requirement Shodhganga division has developed an interface to support bulk metadata upload of Thesis with one click in its intermediate server. The metadata format is designed by the INFLIBNET Centre to maintain the standards of metadata based on the modified Dublin Core standard. The format can be requested from the INFLIBNET Centre or downloaded from their University Coordinator account login.

The new interface has been designed during the months of July-September 2022 for Bulk uploading of the metadata by the CFTIs and initial testing was done with the Indian Institute of Technology Guwahati. The INFLIBNET Centre is successful in testing the interface with 2000+ metadata created by IITGW in their IR. IITGW harvested their metadata from their IR and curated it as per the INFLIBNET Centre's template. The Centre has checked and verified the Naming Standards and missing fields in order to maintain the standards for various metadata fields like rendering of Names for Research Scholars and Guides, Title, Abstract, Date of Award/Completion etc.

This newly designed feature Interface tested with IITGW can be extended to all CFTIs and Universities. The CFTIs/Universities can upload the bulk metadata of their theses records through the import metadata option, thereafter, upload full text

in due course of time. This will help the CFTIs comply with the circular issued through the Ministry of Education for NIRF.

The technical detail of a sample format of the Bulk Metadata Upload is given below:

Shodhganotri

In Shodhgangotri, a total of 9357 Synopses/MRPs/PDFs/Fellowships have been submitted to the repository by the end of the reported period by the contribution of 102 Universities.
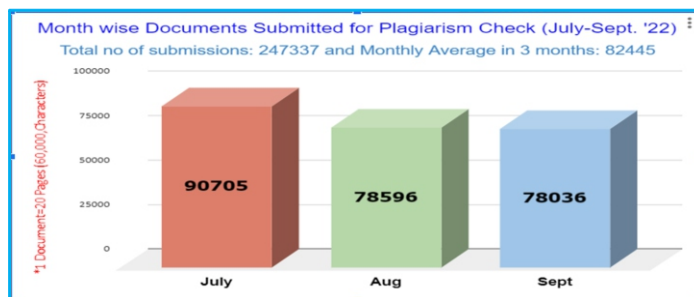

ShodhShuddhi and Plagiarism Detection Software (PDS)

The Ministry of Education through its initiative ShodhShuddhi provides access to Plagiarism Detection Software (PDS) to all universities including Central, State, Deemed, and Private Universities, as well as Centrally funded Technical Institutions (CFTIs) in India through Central funding
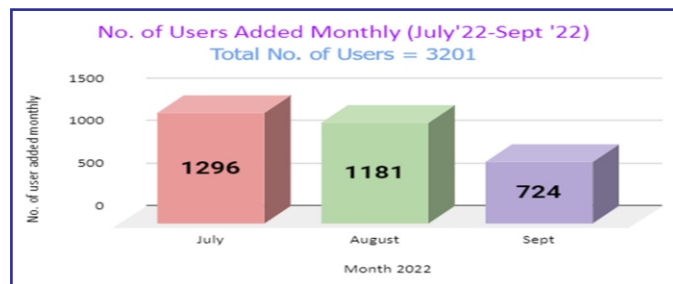

to enhance academic integrity in academic institutions and to curb plagiarism, w.e.f. 01st September 2019. This program was launched by the Hon'ble Minister of Education during the CABE meeting in Vigyan Bhavan, New Delhi and it is being executed by INFLIBNET Centre, Gandhinagar. As on 30th September 2022, a total of 2.5 million (25 Lakhs) documents have been submitted for checking plagiarism by 1,33,707 users from 860 Universities/institutions. The rest of the Universities/institutions are either using any other software or research programmes are not yet started there.
